“MONDE À PART is exactly the kind of program that French Immersion students need! By exploring language through song, my students learned new words and found a renewed enthusiasm for the language. They were completely enthralled and engaged...in FRENCH! Sylvain Henri's time in our school left its mark; my students love our new school song and they continually ask me to play his songs in class! Merci MONDE À PART!”

“Our week with Sylvain-Henri Simard was amazing! The students were quickly engaged and encouraged to participate in the creation of our school song. Sylvain was able to incorporate a lot of visuals and actions which made it very easy for the students to learn and understand. It was a great experience to have such a positive and dynamic educator working with the kids. He was quickly able to adapt the French vocabulary used and spoke at an adequate pace with the students to ensure the comprehension of his presentations. It was a great experience and we hope he will be able to come back to our school soon! Merci!”

“I then had the chance to see him interact with young students in several occasions, in festivals and workshops, as a music teacher and a director. Sylvain-Henri brings the best out of students he works with, knowing what they are interested in, relating to them, and giving them the passion for music and for life that they so eagerly feed on at that time of their life.”

Josée Thibeault

Director, author, Chair of the Regroupement artistique francophone de l'Alberta

“A week with Sylvain-Henri Simard was simply not enough according to our students and teachers. It has already been a week since his passage at our school and the students are excitingly continuing to sing the songs they have learned with him. During his presentations Sylvain-Henri showed exceptional classroom management with over 60 students at a time. The students were engaged and excited to participate in all of the activities, and we must admit, so were the teachers! Sylvain-Henri was able to easily adjust his presentation according to the students’ abilities and knowledge of the French language. The presentations also included many visual materials that helped students understand the new vocabulary they were exposed to. The students are very proud of singing their new school song and it brings a great spirit to our school. We can't wait to welcome MONDE À PART again! Un grand merci!”

“My students are in FRIM Kindergarten and have only been exposed to French since September, and even though Sylvain-Henri spoke only in French, the kids were absolutely drawn to him, and understood everything he needed them to. They LOVED this experience and learned a TON!!!! 2 weeks later the kids are STILL singing the songs he taught them, and asking if we can practice together! I have never seen my kids sit so nicely and participate for so well with anyone. AMAZING!!! I am 100% pleased with Sylvain-Henri’s work, and would recommend him to any school! ”
